

### 1: IPO Chart

Tested Action	GitHub Commit ID	Expected Output (Result)	Actual Output	Pass/Fail	Notes
1. User Sign-Up	690a41ee67e697d1335d2f28a299505a3e47d9d2	New account is created, user redirected to profile page	Account created, but data not saved; no redirect	Fail	Likely missing a working backend or database. Needs JavaScript or server-side code (like PHP) to store user data.
2. User Login	9ea37c8743df0954a02c11074bfb260f2821b62c	User is logged in and redirected to homepage or profile	Login fails due to broken sign-up flow	Fail	Depends on sign-up working. Needs user data storage to check credentials.
3. Upload Artwork	e84d4b612ed10c3e0192aebbd77852e5880e52dc	Artwork appears in user profile and gallery if you're logged in	Upload blocked; "log in first" error; guided me to log in	Partial	Upload works but only when logged in, which is broken

Introduction to Web Development\_Task 4\_Technical Document\_CAWEB-506-1503\_AuroraMifsud  
GRD5.1B

					right now.
4. Browse Gallery	690a41ee67e697d1335d2f28a299505a3e47d9d2	Displays matching artworks	Worked correctly	Pass	This is a static feature, so it works as expected.
5. View Artist Profile	a4a00ce9033a19706cf1e75a3592ed4cbd8598fa 82d0d8c45eb94a60f3ea214a9615a8ac961731	Full profile with bio, portfolio, and contact button displays	All data loaded successfully	Pass	All static content loads fine – no dynamic login required.
6. Post to Forum	82d0d8c45eb94a60f3ea214a9615a8ac961731	Post appears in forum thread if you're logged in	Page missing	Fail	Page unfinished
7. Contact Form	680134e50191e4808fb3da027ebc484e7c3ca9cf	Success message appears / email sent to admin	Worked correctly	Pass	Appears to work, though form may not send real emails without a backend.
8. Logout	680134e50191e4808fb3da027ebc484e7c3ca9cf	Redirect to homepage or login screen	Did not work	Fail	I need to fix the log in and sign up first before.

9. Responsi ve Design	690a41ee67e697d1335d2f28a299505a3e47 d9d2 9ea37c8743df0954a02c11074fb260f2821b 62c e84d4b612ed10c3e0192aebbd77852e5880e 52dc 690a41ee67e697d1335d2f28a299505a3e47 d9d2 a4a00ce9033a19706cf1e75a3592ed4cbd859 8fa 82d0d8c45eb94a60f3ea214a9615a8ac961 731 82d0d8c45eb94a60f3ea214a9615a8ac961 731 680134e50191e4808fb3da027ebc484e7c3ca 9cf 680134e50191e4808fb3da027ebc484e7c3ca 9cf	Layout adjusts to be mobile/tabc let friendly	Worked correctly	Pass	
10. Error Handling	690a41ee67e697d1335d2f28a299505a3e47 d9d2 9ea37c8743df0954a02c11074fb260f2821b 62c 82d0d8c45eb94a60f3ea214a9615a8ac961 731 82d0d8c45eb94a60f3ea214a9615a8ac961 731	Useful feedback (e.g., “Password must be at least 8 characters ”)	Valid error message s shown	Pass	Simple form validatio n works through HTML attribute s.

16. Error Unclosed element section.  
From line 121, column 5 to line 121, column 36  
n -----> <section class="filter-section">  
  
17. Warning Section lacks heading. Consider using h2-h6 elements to add identifying headings to all sections, or else use a div element instead for any cases where no heading is needed.
```

I had a lot of issues here. I had to remove spaces, I didn't write the whole alt so I had to write the whole alts (alt="Elena Rodriguez" and alt="Amara Okafor") and i also had some unclosed elements like divs, sections that I needed to close.

## Sign Up:

The screenshot shows the W3C Markup Validation Service interface. At the top, there is a code editor window containing the HTML and CSS for a sign-up page. Below the code editor is a message filtering section with a "Check" button. A note says "Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings." The main area displays a list of validation errors numbered 1 through 5. Each error is highlighted with a yellow box and includes a detailed description of the issue, the line number, and the specific element or attribute causing the error.

- Warning** The `:navigation` role is unnecessary for element `nav`.  
From line 332, column 5 to line 332, column 101  
`</a><nav class="navbar navbar-expand-lg fixed-top" role="navigation" aria-label="Primary navigation">`
- Error** Element `div` not allowed as child of element `label` in this context. (Suppressing further errors from this subtree.)  
From line 477, column 57 to line 477, column 79  
`<div class="type-desc">I crea</div>`

Contexts in which element `div` may be used:  
Where `flow content` is expected.  
As a child of a `dfn` element.  
Content model for element `label`:  
`Phrasing content`, but with no descendant `labelable elements` unless it is the element's `labeled control`, and no descendant `label` elements.
- Error** Element `div` not allowed as child of element `label` in this context. (Suppressing further errors from this subtree.)  
From line 478, column 57 to line 478, column 79  
`<div class="type-desc">I crea</div>`

Contexts in which element `div` may be used:  
Where `flow content` is expected.  
As a child of a `dfn` element.  
Content model for element `label`:  
`Phrasing content`, but with no descendant `labelable elements` unless it is the element's `labeled control`, and no descendant `label` elements.
- Error** Element `div` not allowed as child of element `label` in this context. (Suppressing further errors from this subtree.)  
From line 486, column 57 to line 486, column 79  
`<div class="type-desc">Art Lo</div>`

Contexts in which element `div` may be used:  
Where `flow content` is expected.  
As a child of a `dfn` element.  
Content model for element `label`:  
`Phrasing content`, but with no descendant `labelable elements` unless it is the element's `labeled control`, and no descendant `label` elements.
- Error** Element `div` not allowed as child of element `label` in this context. (Suppressing further errors from this subtree.)  
From line 487, column 57 to line 487, column 79  
`<div class="type-desc">I appr</div>`

Contexts in which element `div` may be used:  
Where `flow content` is expected.  
As a child of a `dfn` element.  
Content model for element `label`:  
`Phrasing content`, but with no descendant `labelable elements` unless it is the element's `labeled control`, and no descendant `label` elements.

## Nu Html Checker

The screenshot shows the Nu Html Checker interface. At the top, there is a message stating "This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change". Below this is a section titled "Showing results for contents of text-input area". The main area contains a code editor window with the HTML and CSS for the sign-up page. A "Checker Input" section at the top of the code editor has buttons for "Show source", "outline", "image report", and "Options...". Below this is a "Check by" dropdown set to "CSS". The code editor shows the HTML structure with various meta tags, links to CSS files, and a style block. A "Check" button is located at the bottom left of the code editor. Below the code editor is a message filtering section with a "Check" button. A note says "Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings." The main area displays a list of validation errors numbered 1 through 25. Each error is highlighted with a yellow box and includes a detailed description of the issue, the line number, and the specific element or attribute causing the error.

- Warning** The `:navigation` role is unnecessary for element `nav`.  
From line 332, column 5 to line 332, column 101  
`</a><nav class="navbar navbar-expand-lg fixed-top" role="navigation" aria-label="Primary navigation">`

12.  <link rel="stylesheet" href="https://cdnjs.cloudflare.com/ajax/libs/font-awesome/6.4.0/css/all.min.css">
13.  <!-- Google Fonts -->
14.  <link href="https://fonts.googleapis.com/css2?family=Inter:wght@300;400;500;700&family=Sora:wght@600;700&display=swap" rel="stylesheet">
15.  <style></style>
16. <style>
17.   :root {
18.     --primary-color: #6c63ff;
19.     --secondary-color: #4ca5f0;
20.     --dark-primary: #2c3e50;
21.     --dark-secondary: #34495e;
22.     --light-primary: #e6f2ff;
23.     --accent-color: #ff9800;
24.     --watermelon-red: #ff5555;
25.     --light-purple: #e6eaf2;
26.     --light-yellow: #ffd93f;
27.   }
28. </style>
```

Here I had to remove the spaces again and close one unclosed div element.

style.css:

```
center; margin-bottom: 15px; color: #333; font-family: 'Sora', sans-serif; font-weight: 500; } .map-wrapper { border-radius: 10px; overflow: hidden; box-shadow: 0 5px 20px rgba(0, 0, 0, 0.08); } .faq-section { padding: 60px 0; background-color: white; } .faq-section h2 { text-align: center; margin-bottom: 40px; color: #333; font-family: 'Sora', sans-serif; font-weight: 700; } .accordion-item { border: none; margin-bottom: 15px; border-radius: 8px; important; overflow: hidden; box-shadow: 0 2px 10px rgba(0, 0, 0, 0.05); } .accordion-button { padding: 20px; font-weight: 500; font-family: 'Inter', sans-serif; color: #333; } .accordion-button:not(.collapsed) { background-color: #3EAEDF; color: white; box-shadow: none; } .accordion-button:not(.collapsed)::after { filter: brightness(0) invert(1); } .accordion-body { padding: 20px; color: #666; }
```

I got stuck here and got confused on where and how to fix these.

## 3: Current Issues in My Website & Future Improvements

### Current Issues in My Website

#### 1. User Sign-Up and Login Not Working

The sign-up and login features don't save any user data. I wasn't able to connect them to any working backend or database, which means accounts can't actually be created or used. I tried to figure it out on my own, but I couldn't get it to work.

#### 2. Logout Doesn't Work

Since login isn't working, logout doesn't work either. There's no actual session being created or stored, so the logout button doesn't do anything.

#### 3. Upload Artwork Feature is Blocked

The artwork upload button checks if a user is logged in—but because login is broken, the upload process is blocked. I only get a message saying to log in first.

**4. Forum Page is Missing**

The forum page doesn't show up. It's not finished or connected, so nothing loads when I try to view or test that section.

**5. Site is Static Only**

Everything that works on the website is static. There's no real user interaction or saved data. Forms can be filled in, but nothing is saved or processed after submission.

**Future Improvements**

**1. This Was My First Time Doing a Project Like This**

It was honestly really difficult. I had to learn everything by myself, and I found it really challenging to understand how sign-up, login, and databases work. I now realize that as a beginner, I probably should've started with something simpler and more focused on the skills I already had.

**2. I Want to Improve My Basics First**

I'm planning to spend more time learning and practicing HTML, CSS, and JavaScript so I can build a stronger foundation before I try to add complex features like authentication or working databases again.

**3. Dynamic Features Can Come Later**

Once I'm more confident, I want to come back to this project and try again to build working login, upload, and user profile systems. I'd like to make it so users can actually upload artwork and have their own accounts.

**4. I Need to Finish All the Pages**

The community/forum page is still missing and needs to be completed and linked properly. I also want to go through each page again to make sure all sections are fully finished and connected.

**5. I Want to Make the Site More Accessible and Valid**

I've learned how important it is to close tags, add proper alt text, and keep my code clean. I'll keep using validation tools and improving accessibility in the future.

**6. Better Planning Next Time**

I want to plan better next time and choose a project that matches my level more closely. This project showed me my limits, but also helped me understand what I'm capable of and where I need to grow.
